The Ultimate Ballistic Protection

DE-MINING APRON

Overview

The De-Mining Apron is designed as a full fitting suit to provide maximum possible protection against fragments and explosions from detonating anti personnel mines. The Garment design allows for interchange ability and upgrading of Armour protecti levels according to the customer's requirements.

Features

- The De-Mining Apron can be worn short, medium or long, depending on your ac
- Velcro and Webbing adjustment on sides, shoulders and legs ensures exact fit.
- The inner most layers is made with poly-strong mesh fabric and fitted with our in Trauma Reduction System - this facilitates airflow around the wearer's body to ens comfort and effectively dissipates energy from the Chest in the event of an explos
- The De-Mining Apron includes Groin that can be worn when wanted, and folded inside the armour cover when it is not wanted.
- Flexibility and low weight enables the suit to be worn comfortably for long perio operation without restricting wearer maneuverability.

Outer Garment

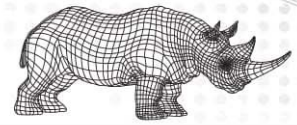

The outer garment is washable and made of high quality Nylon fabrics that is specially treated to be flame retardant, water repellent, and abrasion resistant. The inner most layers is made with poly-strong mesh fabric and fitted with our Integrated Trauma Reduction System- this facilitates airflow around the wearers body to ensure maximum comfort and effectively dissipates energy from the chest in the event of an explosion.
