

Hard Shell

The Ultimate Ballistic Protection

FRAG SHELL

Overview

Frag Shell is a unique wall like, easily movable structure, developed by us, to be used against light ammunition & splinters from blast. The frag Shell can be rolled, fitted in a bag and transported comfortably, to the areas of causality.

This is a new generation light weight device to protect in times of sudden attacks. More than 5-6 people can hide to protect themselves while cross firing.

Features

- Made of Hardware fabric for rough use.
- Heavy Duty Webbing & Velcro hoop & loop used as per all International & Indian Standards
- Foldable Stand made of light weight & Durable PVC material which helps in easy mobility.
- Nut, Bolts made of Nylon, which have good properties of durability & do not attack themselves as splinters in time of attacks.
- Nylon fabric different colour handles, for easy recognition.
- Folded in a bag made of Hardware Fabric with 6 Handles for Easy lifting & mobility.

Protection Level

Protection against 9mm & .44 Magnum Bullets & Splinters from blast as per threat level IIIA, NIJ 0101
