

Hard Shell

The Ultimate Ballistic Protection

Plate Carrier Vest Slick II

Overview

Not every mission is the same and your body armour should reflect this. A combination of the plate carrier and a full tactical vest, the Slick II is a modular carrier allowing maximum flexibility, to add or remove Hard Armour Panels as per different threat levels of protection deemed by the mission's requirements. Designed to hold our standard 10" x 12" Hard Armour Panel, and can be offered in an ICW configuration allowing for soft armour panel inserts. With comfort padding, breathable mesh and adjustable side and shoulders, the Slick II allows for maximum mobility and mission flexibility.

Certification & Testing

- All our products are tested both in the field & in International Laboratories around the World.
- All Body Armour manufactured by Hard Shell is tested strictly to ensure ongoing compliance.
- Through rigorous field & Laboratory testing we certify that our products offer protection as per standards set by the National Institute of Justice of America.
